

CVRD 200/300

The CVRD range is designed to meet a variety of demanding applications, including PST De-Sludge, Sludge Transfer, Digester Feed, Grit Removal & Food Waste Management.

CVRD RANGE

DESIGNED FOR PERFORMANCE

Revolutionary Design for Optimal Performance:

- ✓ **Time-Efficient Flow:** Our innovative design features one sludge ram lifting as the other pushes down, ensuring a continuous and efficient flow.
- ✓ **Higher Flow Rates:** Achieve higher flow rates without the need for hydraulic power packs, resulting in significant energy cost savings and reduced motor size.
- ✓ **Compact and Accessible:** The small overall footprint and design ensure all parts are easily accessible without the need for working at height.

Economic & Maintenance Advantages:

- ✓ **Energy Efficiency:** Enjoy substantial reductions in energy costs thanks to the efficient design.
- ✓ **Minimal Maintenance:** Built with maintenance in mind, the CVRD range requires minimal upkeep, saving you time and money.

TRUSTED, ROBUST & RELIABLE PUMPING SOLUTIONS

QUIET & SLOW
